

MENU OF SERVICES

COOLSCULPTING®

CoolSculpting® is a non-surgical, FDA-approved fat-freezing procedure. By utilizing controlled cooling, CoolSculpting® is able to freeze away stubborn fat cells that sticks around despite a healthy lifestyle. CoolSculpting® technology safely focuses on freezing fat cells underneath the surface of the skin without freezing the skin itself.

Pricing varies based on consultation

BOTOX & DYSPORT

BOTOX® Cosmetic and Dysport® are injectable treatments to create smoother, more youthful skin. BOTOX® Cosmetic is the most popular form of neurotoxin injectable treatment on the market today. Made from the botulinum toxin, BOTOX® Cosmetic is currently the only FDA-approved treatment to reduce the appearance of moderate to severe lines between the brows and crow's feet in the eye areas.

\$12 per unit

DERMAL FILLERS

For fine lines, wrinkles and skin folds, dermal fillers are a fast, safe treatment option. At Youthtopia Med Spa, we offer a variety of dermal fillers to effectively treat each individual skin type and condition. We offer Juvederm®, Voluma®, Radiesse®, and Restylane®.

\$600- \$850

KYBELLA®

KYBELLA® is the first injectable to be FDA-approved to address one of the most common aesthetic problems that people face – excess chin fat. In the past, individuals had to undergo painful, surgical procedures to eliminate sub-mental fat. With KYBELLA®, solving this aesthetic frustration is as easy as a simple series of injections.

\$600-\$1200 per treatment

TESTOSTERONE REPLACEMENT-MEN

Testosterone replacement therapy are injectable treatments that can help boost and restore low levels of the male steroid hormone. It can improve men's quality of life on a daily basis and prevent conditions such as hormone imbalance, low-energy, low-libido, fertility concerns, and sexual dysfunction.

\$45 per week

SKIN TIGHTENING

On the cutting edge of body contouring and skin tightening, we combine advanced radio-frequency (RF) technology with vacuum therapy to stimulate the body's natural regeneration process using Viora & Thermi. This state of the art technology allows us to tighten & smooth the skin.

Pricing varies based on consultation

THERMIVA™

Previously, problems like vaginal laxity, stress incontinence, sexual dysfunction, and recurrent dryness were left unaddressed and ignored by the women that suffered from them, due in part to both social stigma and lack of effective treatment. ThermiVa™ is a state-of-the-art radio-frequency treatment that can solve many of these problems, providing women with a non-surgical, non-invasive way to restore both the internal and external look and feel of the vagina.

\$2800 series of three treatments

LASER HAIR REMOVAL

The most permanent reduction for unwanted body hair. Using highly concentrated laser energy, beams of light are emitted directly into treated areas using a handheld device. The light is then absorbed by the hair follicles, destroying the hair and disabling the follicle.

Pricing varies based on consultation

MICRONEEDLING

Micro-needling is used to effectively reduce the appearance of several skin conditions, including: mild acne scars, loose, sagging skin, wrinkles and fine lines, new or old scars, irregular skin texture, large pores, stretch marks and can be used on almost all areas of the body. Using a SkinPen, it creates controlled micro-injuries to stimulate the body's natural wound-healing process and collagen, while minimizing cellular damage.

\$350; \$600 with PRP

MICROBLADING

Microblading is a unique solution that can help augment your eyebrows for an enhanced look. This exciting procedure is performed by a member of our medical spa team by using a handheld tool to instill pigmentation beneath the surface of the skin. With careful handling, the microblading instrument will create genuine-looking eyebrow hairs.

\$550

MENU OF SERVICES

LASER FACIALS

Our laser medical facial treatments utilize the body's own healing process to create real, natural results with no surgery or downtime. We use the Photofacial YAG Laser for our medical facial treatments. This gently penetrates the skin surface to stimulate the growth of new collagen - the protein responsible for skin firmness and structure.

\$350

ANTI-AGING FACIAL (60 MINUTES)

Your treatment will remove impurities and hydrate the skin. Brightening will continue while using steam, exfoliation and hydration from our medical grade products. A facial massage filled with rejuvenating aromas will put you in a youthful state of mind. A customized mask will rid the skin of impurities refining the appearance of pores. Anti-aging serums, treatment creams and sunscreen will complete this revitalizing treatment.

\$130; Organic option \$155

ACNE FACIAL (60 MINUTES)

Your treatment will begin with an exfoliating cleanser that removes impurities, calms, balances, and hydrates the skin. Brightening of the skin will continue with steam, exfoliation, and hydration. A customized mask will rid the skin of impurities, balance the skin's moisture levels without stimulating excessive oil production and calms irritated skin. Healing serums, treatment creams, and sunscreen will complete this deep cleansing treatment.

\$150; \$75 for teen

HYDRAFACIAL

This non-invasive treatment uses a blend of glycolic and salicylic acid for deep exfoliation, then infuses your skin with peptides, antioxidants and hyaluronic acid. This leaves your skin feeling and looking cleaner, tighter, brighter and hydrated. It is great for all skin types, causes no downtime and produces immediate results.

YOUTHTOPIA FACIAL (60 MINUTES)

Your skin will be cleansed with a mild, creamy cleanser that removes make-up, dirt and debris without upsetting the skin's delicate moisture balance. Soothing facial rinse will calm, hydrate and keep skin at its optimum pH level. Steam and gentle exfoliation will follow to prepare the skin for maximum penetration of gentle anti-redness, healing serums, masks and treatment products. A facial massage filled with calming aromas will relax and balance your mind. Customized masks will hydrate, purify and balance your skin's moisture barrier. Healing serums of Vitamin K and Hyaluronic acids, along with sunscreen will complete this soothing, healing experience. This facial includes laser add on. We use the Photofacial YAG Laser for our medical facial treatments. This gently penetrates the skin surface to stimulate the growth of new collagen - the protein responsible for skin firmness and structure.

\$240

EYELASH EXTENSIONS

Eyelash extensions help accentuate the eyes. Our eyelash extensions are made of synthetic, single-fiber polyester thread-like materials and are carefully applied to individual lashes using surgical-grade adhesive tape that will not irritate your skin.

\$175; \$85 fill in

PERMANENT MAKEUP SERVICES

Typical areas individuals choose to have permanent makeup applied are the eyebrows, the lips, and the cheeks, among others. With permanent makeup, you will no longer have to spend time applying temporary cosmetics.

Pricing varies based on consultation
